Business not Affected. The recent depression in business has not affected the enger traffic of the St. Louis, Kansas City & Northern Short Line, as they continue to run six fast express trains two more than any other line between the Missouri and Mississippi Rivers. This road enjoys great imm from accidents, by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in wenderful improvements, in relaying their line with stock supplied with all modern applicances for comfort and safety, and as another safeguard, employ night and day watchmen to inspect the road before and after the passage of each train, to see that everything is in order. Conspi cious among new improvements is the substitution for or dinary cars, of new reclining chair coaches, elegantly car peted and fitted with dressing rooms for ladies, gentl and families, seithout any extra charge. The St. Louis, Kansas City & Northern and the Kansas City, St. Joseph & Council Bluffs Railroad form the only line running ough Pullman Palace Sleepers between Omaha and St Louis. The shortest line between the West and the East is over the St. Louis, Kausas City & Northern Short Line, either through St. Louis, the great metropolis of over 450,000 inhabitants, or through Chicago, ris the Chicago & Alton Short Line, over the Louisiana Bridge now open for passage of through trains. Ticket Agents of connecting roads selling through tickets to the East. North or South lling through tickets to the East, North or South, will fornish tickets by this excellent line. The long and parching drouth came to a happy end in copious showers of rain tast fell on last Thursday night. Happy end, I say; but every rose has its thorn night. Happy end, I say; but every rose has its thorn. The excessive heat was followed by an almost pe-petual blase of lightning, and peal after peal of the loudest thunder. The Parsonage was struck by the electric current. Rev. G. W. Wood and his wife were salesp. They were rendered senseloss for some minutes, and the house set on fire. Mr. Wood recovered so far as to take in the condi-tion of affairs, and found his wife still senseless; but she also was very soon resuscitated, and they began extin gaishing the flames, which was accomplished by the time-ly aid of Baird, Campbell, Morse, and others, who came to their aid, and took them to their houses, and kindly cared for them, the Parsonage having been very much injured.

The greatest excitement that has prevailed here for time, was the Convention, on Saturday, which was called for two o'clock. At an early hour, wagon loads of matches, and the friction of opening the box had ignitude upon personal or written application to G. H. Baxter, Western Came flocking in and all were inhibited at the results of them, communicated fire to the cigars, from thepree term Agent, Kansas City, Mo., or E. A. Ford, General came flocking in, and all were jubilant at the respond, but they seemed a little crest-fallen, on finding that a great majority of them belonged to the Grange, and went to the Hall instead of the Convention. But printed fickets were passed around to the satisfaction of all, until, by some unlucky "slip," it was ascertained that the "State" was "put up," when one of the leaders "went off on his ear," followed by others of the subordinates, who were heard to exclaim, "that Wolf River had been carried long enough in one Trojan's pocket," and the case was all the more agg avating, because they did not see it until also! It was no late:

Business is quite lively, considering the grasshopper panic. Apples fresh from the orchards, every day. Omnibus business being a little dull, the Hon. has turn d his attention to furnishing the "Benzine" venders with

cider, and the groceries with apples. The new M. E. Church is almost completed, and it is a credit to the people of our thriving town.

Iown Point Gossip. Since my last, the grasshoppers are going for every thing most that is catable; but when it comes to some of the bipeds. I think they will find them hard to masticate Our place has been honored, if I may use the term, by the advent of some young men who left here some sex years since, to better their condition, and give the world the benefit of knowlege acquired under adverse circumstances. They severally carried gold watches, were fin clothes, yet did not seem wholly above speaking to their old chums. It is to be hoped that their course may be upward and onward, and hope they may never arrive to that

pass that they will not recognize their poor kindred. Our mills are going slow, the farmers being backwarin improving their farms, the grasshoppers throwing a damper on everything.

Our merchants feel like hanging their harps on the willows; but it is to be hoped they may be enabled to pay, as beretofore, their just siabilities.

SINGULAR OCCURRENCE.—One of the strangest stories of the day, and the most novel phase of the gras estion that has yet presented itself, comes to us from Phillips County. About a year ago, a family from Geor gia, of German descent, named Boomershine, located nes, the western line of Philitys County. The cidest daugh the western one of Pullips County. The decembers ter, aged about eighteen, was addicted to the Southern habit of clay-cating. She usually obtained the clay from the roadside, where it resembled the clay in the South, of waich the natives are so fond. Early this Summer, the grasshoppers settled down in that region, and soon began grassnoppers settled down in that region, and soon began dopositing their eggs in the gardens, fields, and by the roadside. The Boomershine girl west on with her clayesting, as namal, with no musual effect, until a short time ago, when she began complaining of an uneary feeling in her interior, and commenced gradually swelling, like one with the dropsy. The symptoms ingressed and a shange began to take place in her appetite. She no longer had a taste for clay, but seemed to hanker after the blades of corn, leaves of irress, dog fembel, and other weeds; and she said she frequently felt as if she could take winer and fire said she frequently felt as if she could take wings and fly away, Dr. Le Duc, of Phillipsburg, was sent for, who said that he had never before met with a case of the kind that she must be laboring under some ballucination of the mind. Things went on thus until recently, when one day the grasshoppers commenced rising and taking their flight. The girl looked at them for awhile, when, mable to restrain berself longer, she rushed out of the bouse, flapped her arms as if they were wings, rose about ten feet in the air, and then fell to the ground dend. Dr. LeDuc made a post mortem examination, which revealed the wonderful fact that her insides were literally swarming with full grown grasshoppers. The theory is, that she ate of the clay in which the insects had deposited their eggs; they were hatched out inside of her; her appetite artook of theirs; and when the time came for the grass hoppers to migrate, instinct directed those inside of he hoppers to migrate, instanct directed those inside of her to do the same. An immense concourse of people attend-ed the girl's funeral. Dr. LeDuc has preserved a jar of the grasshoppers, which he intends depositing in the Smithsonian Institution at Washington, and in the various medical museums throughout the country.

" Jan. 1, 1880, DEATH OF HENRY WILSON.-One by one the pioneers of oniphan County are dropping off. Last Friday night, Henry Wilson, County Surveyor, died suddenly, at his residence, on the road between Troy and Wathena. He had been ailing, the week before, but had got well. Fri day he was cutting corn in his field, and retired to 'bed at night, feeling as well as ever. About 11 o'clock, his wife was awakened by some movement of his; he seemed to rise up in bed, but immediately tumbled out on the floor: and after two or three short gasps, was dead. It is supposed to have been heart disease.

Mr. Wilson was aged about 55 years. He was a native of North Carolina, but many years ago removed to Missouri, where he remained until 1855, when he came to sas, and settled in Doniphan County, where he has re sided ever since. During the greater part of the time, for the past seventeen years, he has held the office of County Surveyor. He was an honest man and a useful citizen.

Centaur Liniment.

There'is no pain which the Centaur Lin-

not cure. This is strong language, but it

is true. It has produced more cures of sprains, swellings, caked-breasts, scalds, burns, salt-rheum, ear-ache, &c., upon the human frame, and of atrains, spain, galls, &c., upon animals, in one year, than have all other pretended remedies since the world began. It is a counter irritant, an all-healing pain reliever. Cripples throw away harmless, and the wounded are bealed without a scar. It is no humbug. The recipe is published around each bottle. It is selling as no article ever before sold and it sells because it does just what it pretends to do. Those who now suffer from rheumatism, pain or swelling, deserve to suffer if they will not use Centaur Liniment. More than 1,000 chronic-rhe"natism, gout, running tumors, &c., have bee the recipe. &c., gratis, to any one requesting it. One bot for screw-worm in sheep. Stock-owners—this liniment is

Yerk net cry, and mothers may rest.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Versages." "What is the cause of the unparalleled success of Vinegas Bitters." Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegas Bytters in healing the sick of every disease man is heir to. They are a gentle Pur, ative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Vinceral Org ns, in Bilious Diseases. They are easy of administration, prompt in their results, safe and reliable in all forms of diseases. If men will enjoy good health, let them ase Vinegas Bitters as a medicine, and avoid the use of alcoholic stimulants in every form.
